This is my Home Page! I will use the Fuchsia **#ff00ff**, hex color, and the Avenir Next Condensed font for all my pages. I have decided to include an “intro video” here for my home page. I will create this video soon and briefly introduce myself and the webpage.

About Page

About Me

[Home Page](#) [Experience Page](#) [Reflection Page](#) [Contact Page](#)

I plan to graduate with a Bachelor of Interdisciplinary Studies with a specialization in Architecture, Marketing, and Psychology from the University of Missouri in May 2024. To round off this, I'll have earned a minor in business. In order to add even more real-world experience to my Mizzou education, I worked part-time at the Adam Puchta Winery in Herman, Missouri.

I started my academic career in 2020 at East Central College in Union, Missouri, where I graduated with an Associates' Degree the following year in 2021. This formative experience prepared me for my pursuit of a University of Missouri comprehensive education. My studies at Mizzou are multidisciplinary, combining psychology, marketing, and architecture, which represents my dedication to a comprehensive understanding of several subjects.

I was born and raised in New Haven, Missouri, where I also finished my high school and primary schooling. My commitment to academics was matched by my active participation in a variety of sports and groups during middle and high school. I graduated in 2020 and placed in the top 10 of my class.

My involvement in sports, such as basketball, track and field, and volleyball, has developed a strong sense of discipline, perseverance, and collaboration. My participation in extracurricular organizations like Student Council, Family, Career, and Community Leaders of America, Future Business Leaders of America, and Fellowship of Christian Athletes has also helped me to develop a wide range of skills, from organizational and leadership skills to a dedication to community service.

Experience Page

[Home Page](#) [About Page](#) [Reflection Page](#) [Contact Page](#)

During my time of going to East Central College, I also worked for Gildehaus Construction, a local company in New Haven. I worked with Gildehaus Construction from September 2020 to August 2021. Here I was considered as an office assistant. This job taught me a lot about behind-the-scenes in construction and the business part of it. I had many different responsibilities working for this company. Most regularly, I would organize customer files, prepare bills for subcontractors, and prepare customers' invoices. Occasionally, I would have errands to do in town, which ranged anywhere from doing returns at Lowes, delivering supplies to job sites, and delivering employee paychecks. This job was beneficial for my understanding of the business. I had the opportunity to meet new people and enhance my organizational skills.

I worked as a diligent lifeguard during the summers of the years 2018, 2019, and 2021 at the New Haven Municipal Pool in New Haven, Missouri. Participated in frequent in-services to improve abilities, kept a close eye on assigned pool areas, gave visitors safety and happiness priority, and collaborated with a group of coworkers. Each summer we would be audited a few times without our knowing and would have to perform a save. I was audited once each year and passed with exceeds each time. However, I couldn't have passed without my team of co-workers. I also performed three real-life saves. This was stressful in the moment but greatly rewarding. This experience made me more adept at handling stressful circumstances and reinforced the value of cooperation and open communication in a fast-paced setting.

Since June 2023, I have been a Tasting Room Bartender at the Adam Puchta Winery in Herman, Missouri, and I have played a vital role in providing our visitors with an outstanding experience. Serving wine tastings and interacting with customers by telling them about the winery's rich history and variety of flavors is one of the main responsibilities.

Originally, I was going to zig-zag the columns on the experience page, but it wasn't very appealing to look at once I inserted the photos. For the Tablet and Phone pages, I had to reorganize the photos and paragraphs so it could be easier to read for the viewers.

Reflection Page

Reflection Page

[Home Page](#)

[About Page](#)

[Experience Page](#)

[Contact Page](#)

Reflecting on my many jobs I am overall thankful for all of them. They have all shaped me into the person I am today, and I benefited from each of them. As I move on to my professional career, I hope to use all the skills learned from school and work to ensure that I am successful. When I think back on my time working as an office assistant, I can really say that this position gave me a strong understanding of how closely related administrative work and on-site operations are. It included more than just paperwork; it involved actively participating in the projects, serving as a trustworthy link in the chain of events, and realizing the value of accuracy and efficiency in the construction sector.

It's clear to me now that my job as a lifeguard involved more than simply keeping people safe—it also involved building a community in which everyone felt safe, taken care of, and free to enjoy their time at the pool. This experience has improved my practical skills and taught me the value of hard effort, empathy, and collaboration in any professional environment.

My job as a Tasting Room Bartender has helped me come out of my shell. Growing up I have always been sort of shy, but this job has put me in situations that have pushed me out of my comfort zone. I have really enjoyed this job and am grateful for the opportunities it has opened up for me. I continue to help out here on the weekends because I love the atmosphere and meeting new people.

For this page, I did not have much information, so I made a portrait of myself to take up space. I will most likely use a different portrait for this page since I already used this photo. I have scheduled to have new portraits taken since I'm graduating so I will use those.
